## **DETAILED ACTION**

### ***Response to Amendment***

1. The applicants' amendment filed on 10/22/2007 was entered. As the results, claims 5, 12 and 16 were cancelled as indicated. Claims 6, 13 and 17 were amended as independent claims with limitations of their canceled independent claims 5, 12 and 16. Claims 1-4, 6-11, 13-15 and 17-19 are pending in this application at this point.

### ***Allowable Subject Matter***

2. Claims 1-4, 6-11, 13-15 and 17-19 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record teach communication devices in a piconet which can access to services available in an external network, e.g., Internet, PSTN network, etc. through a proxy bridge or the like. The proxy bridge normally functions to poll available services from other network, sorted and stored in its database. The remote communication devices in the piconet can access to the database for services if the proxy bridge stored the requested service and provides same protocol (compatible) with the requested service communication device.

However, none of the above mentioned prior art of record teach:

A. An application server comprising, inter alia, function of a service manifest, as substantially described and connected in the independent claims 1, 6 and 9; and

B. A method for connecting an ad hoc piconet with a wide area network comprising, inter alia, mapping a service invocation that is received from a client in the wide area network to

an ad hoc piconet protocol; invoking the service on the ad hoc piconet; receiving a response from the ad hoc piconet; and providing the response to the client using a wide area network protocol, as substantially described and connected to the independent claims 13 and 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
